Our Services

Internal Audit & Risk Services

Our internal audit professionals can work with you to understand your business strategy and its associated business drivers, and how that strategy is delivered through an appropriate operational business plan and process framework. Your stakeholders will benefit from experienced independent professional evaluations and a review of the quality and effectiveness of the control environment within your organization.

Where areas are identified for improvement, we can work with you to help you identify solutions and achieve your objectives.

Services include:

- Advising your management team to develop workable internal controls that enhance the control environment.
- Providing advice on how to implement an effective and secured internal control environment.
- Advising on how to manage core operational risks, especially those related to the reliability of business operations.
- Assisting with linking operational strategies and risk performance measures to business goals.

- Assisting with change management and business awareness processes by helping make the transition from existing practices to more efficient and focused approaches through training and assisting staff in the development of new skills.
- Evaluating the key structures, dynamics, and processes required to underpin effective corporate governance.

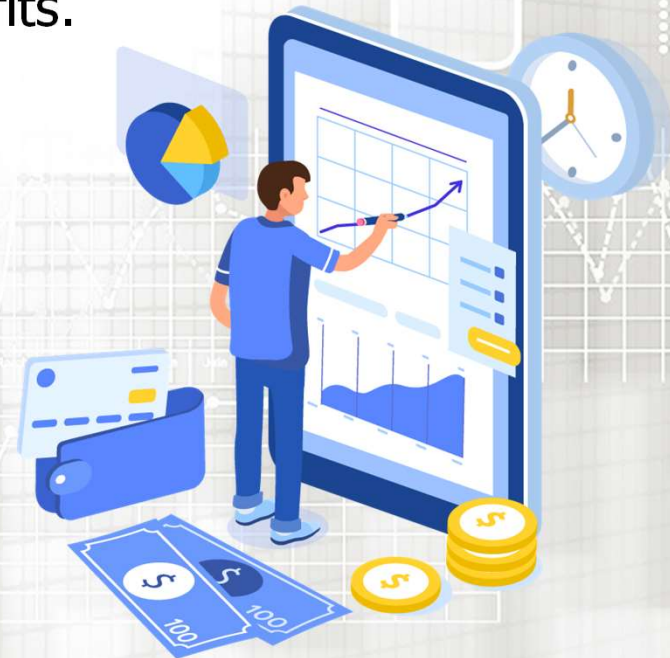

Tax planning & Preparation

Preparing daunting piles of paperwork for tax season is a stressful and complicated endeavor. We offer our clients the most professional tax planning and preparation services. Our experienced firm is trained to look for deductions and credits and we always stay up to date on tax rules. In addition, to make sure your business is compliant with tax, we also suggest strategies that will maximize your profits.

Tax Preparation Services we offer:

- Electronically filed for a quick refund
- List potential deductions
- Recommend tax-saving strategies
- IRS problem resolution
- Identify tax penalties

If you own a business and need help with taxes, working with one of our professional accountants at Laurel Wreath Consulting LLC can help save you time and money.

Save Time & Money

International financial reporting standards (IFRS)

- Is your understanding of IFRS fully joined up?

We can guide you through the business implications of IFRS

If your organization, is an internationally-active growing organization with plans to expand into overseas markets, you need precise, tailored advice on IFRS.

- International expansion plans often involve cross-border acquisitions or joint ventures abroad, raising international debt finance, developing relationships with private equity houses or raising capital from the equity markets, whether at home or abroad. Such transactions are increasingly likely to call for a detailed understanding of IFRS.

•In our firm, we have experts in IFRS who have developed over a number of years of in-depth expertise in FRS and its Implications in local markets whose will support and guide your business through a range of potentially complex IFRS issues

Our IFRS services include:

- IFRS conversion projects
- Due diligence in an FRS environment
- valuations involved in business combinations and implementing the acquisition method.
- Advice on structuring share option plans and other share-based payments.
- Reconciliation between IFRS and other GAAPs (local GAAP)
- IFRS training and technical assistance
- Assistance in the preparation of IFRS accounting manuals and their implantation

IT audit and Advisory services

We provide an effective, well-managed IT system which is one of the most valuable business advantages an organization can secure. The right technology, implemented properly, appropriately managed, and monitored, can lead to significant gains in growth and efficiency. It is essential to get sound business advice to ensure technology risks are managed. We work with clients to analyze business technology issues within their businesses. A client might approach us for assistance with:

A) Software Developing: We designed and developed software specialized in Auditing, Accounting, and timesheet tracking.

B) Developing an appropriate IT strategy: We work with clients to develop a clear IT strategy that fully supports their business objectives.

C) Sourcing: We offer guidance on the most appropriate strategies for outsourcing or off-shoring IT services and ensure effective controls are implemented.

D) Cost optimization: We work with clients to help identify the most effective ways to cut business costs.

E) Regulatory and compliance: We are well placed to assist organizations with regulatory and compliance needs. We have the largest deal of experience in identifying and controlling financial and operational risks embedded in business system
